

James Moulton Thomas for Director At-Large

I have served as a CAPS Local Worksite Representative. Now I want to work for YOU on the CAPS Board.

I have spent most of my adult working life in both the US Army as a NCO and then the US Air Force as an Officer. I served this country with pride and then went on to teach at UC Davis and Rocklin Community College. I now serve my fellow Californians in the Radiologic Health Branch at the Department of Public Health in Sacramento and was instrumental in our state's response to Fukushima Dia-ichi nuclear power plant accident. I know the challenge of making ends meet on a substandard state salary.

My priorities: Salary Equity for ALL; Retirement Protection; Affordable High Quality Health Benefits; Geographic Inequities for High Costs Area; Scientific Integrity.

We have our hands full in protecting what we have, and the challenge of achieving even more. It's hard work. I know because as a CAPS Local Rep; I've been part of the effort. Now I want to serve at the statewide level. I pledge to use my considerable experience and expertise on behalf of all my fellow State Scientists.

I know what it's like to be treated unfairly by my employer. I know where to go when I need help: to my union, CAPS. That's a principal reason why I remain active both as a member and as a Local Rep. You can depend on ME when you need help, when your rights are violated, when you need a seasoned, experienced voice at the other end of the telephone. If I can't provide you the assistance you need, I know where to get it.

I'm ready to join the effort at the CAPS Board level and bring my inexhaustible energy to achieve gains for every one of us. Please let me work on your behalf. Vote for me as your CAPS Director-At-Large.

Please Elect James Moulton Thomas to Be YOUR Director At Large!
