Press Release
August 19, 2019

Assembly Candidate Elizabeth Betancourt Endorsed by Statewide Labor Union

Redding, CA – Elizabeth Betancourt received the endorsement of the California Association of Professional Scientists (CAPS) last week, on August 14. CAPS represents nearly 3,000 state employed scientists working in over 30 state departments in 81 scientific classifications, protecting the public from life-threatening diseases, safeguarding our wildlife and abundant natural resources, and protecting our air and water from toxic waste and pollution.

“California is facing the existential threat of climate change, including air and water quality degradation and increasing dangers to public health. On behalf of CAPS’ 3,000 members, we are proud to endorse a scientist for California State Assembly District 1, and know she will serve our state and her constituents with distinction.” Patty Velez, CAPS President
